Golf 4 All Golf Clinic

Most of the time there are guests you would like to attend the event but they are not golfers. These clinics allow you to invite them along to learn some more about the game prior to the event in the hope that they would have enough confidence to join the day when it comes around. Alternatively we can conduct a clinic during the golf event for the non-golfers and have them join the rest of the guests for the after golf function.

Golf 4 All Photography

Whether it be general photos from the day displayed on a screen during presentation or the full production with print outs, magazine covers and an edited track put to music, it is all available. All photographers supply a master CD with photos at the completion of the event so that you can print or email the photos at your discretion. In some cases a full colour catalogue can also be supplied.

Golf 4 All Video Production

Give your guests something different at your next corporate day. A professionally shot & edited production of the golf day ready to play within 1 hour of the completion of the round. Additional DVDs are also available should you wish to have one provided to each guest.
